

COMPANY DATA

FOUNDED: 1970

STAFF

Total	56
of which: Administration	6
Production	45
Quality assurance	2
Mould engineering	3

CUSTOMER SECTOR / TURNOVER SHARE

Automotive industry	38 %
Electrical industry	22 %
Mechanical engineering	15 %
Toys	20 %
Other	5 %

PRODUCT PORTFOLIO

Technical plastic components
Mould engineering and moulds

MATERIALS

All thermoplasts

MANUFACTURING METHODS

Injection moulding
Module assembly
Mould engineering

QUALITY ASSURANCE

DIN EN ISO 9001 certified QA system since 2003

INJECTION MOULDING PRODUCTION

parts from 2 g to 5,200 g	
Number of machines:	30
of which: clamp force up to 500 kN	3
clamp force up to 1.000 kN	3
clamp force up to 1.500 kN	5
clamp force up to 2.000 kN	4
clamp force up to 2.500 kN	2
clamp force up to 3.500 kN	6
clamp force up to 5.000 kN	1
clamp force up to 8.000 kN	3
clamp force up to 10.000 kN	2
clamp force up to 13.000 kN	1

OPERATING AREA

Dispatch warehouse	1.800 m ²
Intermediate warehouse / Assembly	700 m ²
Injection moulding production I	950 m ²
Injection moulding production II	1.500 m ²
Raw materials warehouse	750 m ²
Quality assurance	50 m ²
Assembly parts warehouse	200 m ²
Mould storage	400 m ²
Mould engineering	400 m ²
Administration	400 m ²

80% of our machines are equipped with handling devices
for automatic parts removal
